SKILLS

- Languages: C/C++, Python, Java, JavaScript
- Databases: MySQL, Supabase, MongoDB
- Operating Systems & Tools: Linux, Shell Scripting, Git, Docker
- Data Analysis: NumPy, Pandas, Matplotlib, Scikit-learn, Power BI, SQL
- Frameworks: React, Node.js, Next.js, Streamlit
- CS Fundamentals: DSA, OOPs, Operating Systems, DBMS, Computer Networks

PROJECTS

Bank Customer Churn Prediction | GitHub — Nov' 25 - Dec' 25

- Built an end-to-end machine learning system for bank customer churn prediction, achieving 87% accuracy and 0.873 AUC on 10,000+ customer records using XGBoost
- Implemented a comprehensive model evaluation pipeline, comparing XGBoost with Logistic Regression, Random Forest, and SVM to optimize recall (51.3%) for early churn identification
- Designed an interactive analytics dashboard using React and Material-UI, featuring demographic insights, confusion matrix visualizations, and ROC curves to support stakeholder decision-making

Tech Stack: Python, XGBoost, FastAPI, React

Vedic Astrology Platform | GitHub | Live — Aug' 25 - Nov' 25

- Developed end-to-end astrology web application with Next.js frontend and Supabase backend, enabling dynamic blog content management and real-time data synchronization
- Implemented YouTube Data API v3 integration with ISR caching mechanism, optimizing video content delivery and reducing server load by 80% while maintaining fresh content through automated revalidation
- Designed a responsive, mobile-first UI with animated components, product catalog, puja booking system

Tech Stack: Next.js, React, Tailwind CSS, Supabase, YouTube Data API

TRAINING

Byte XL | Data Structures and Algorithms | Link — Jun' 25 - Jul' 25

- Pursued a six-week Data Structures and Algorithms summer training, covering core concepts in depth and strengthening programming fundamentals
- Strengthened analytical and problem-solving ability by solving 300+ structured DSA problems on platforms like CodeChef, LeetCode and GeeksforGeeks

CERTIFICATIONS

- Certified Generative AI professional - Oracle | Link — Oct' 25
- GitHub Foundations - GitHub | Link — Jun' 25
- Introduction to Machine Learning - NPTEL | Link — Apr'25

EXTRACURRICULAR ACTIVITIES

Finalist - Hackathon Infotsav'25 — Oct' 25

- Secured place in top 50 out of 800+ participants in a 36 hour hackathon at ABV-IIITM, Gwalior

EDUCATION

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology - Computer Science Enginnering; ***CGPA: 8.95*** — *Apr' 23 - Present*

Central Convent Sr. Sec. School — Patti, Punjab
Intermediate; ***Percentage: 96.20*** — *Apr' 21 - Apr' 22*

Wood Blossom School — Patti, Punjab
Matriculation; ***Percentage: 93.20*** — *Apr' 19 - Apr 20*
